Summary

UX designer, Master's student with a product design background and award-winning projects. Currently focusing on exploring psychological attachment and Human-Computer Interaction. Highly organised, empathic, and with a strong sense of responsibility. Keen to take on new challenges. I am looking for a position opportunity that allows me to extend my knowledge and design practices within a interdisciplinary work environment.

Experience

 **User Experience Designer**

Net Ai

May 2022 - Present

- Redesigned Net Ai's main product dashboard platform "AIDA." Establishing the company's first UX/UI design system and workflow to support ongoing and future product design work.
- Developed a brand strategy and guidelines that resulted in a consistent tone and image across all company outlets such as product, website, presentations, brochures, and other marketing materials. Streamlining future marketing and design work as the company scales.
- Redesigned the company's official website
- Used my design skills to support the company in fundraising and client interactions.

 **User Experience Design Intern**

Guangdong Xinbao Electrical Appliances Holdings Co., Ltd

Jul 2019 - Aug 2019

- UX research assistance – Analysed customer feedback, produced new insights and identified future trends and design opportunities for innovation design projects.
- Product testing assistance – Documented and identified issues from product testing sessions. Provided feedback reports to product design team.
- Foreign marketing research – Deployed my design skills and research methodologies to identify design opportunities.

 **Product Design Intern**

Midea Group

Aug 2018 - Sep 2018

- Speculated future living environments of target users and generated design directions and concepts based on these speculations.
- Applied my knowledge of user experience design to provide feedback to the design team. Supported them in new product development.
- Reviewed work from third party design agencies.
